Dear doctor Kroussos,

Hope this email will finds you in good health.

Thank you for taking part of the

FDA Expert Panel on Selective Serotonin Reuptake Inhibitors (SSRIs) and Pregnancy

on July 21 2025

We are a dutch Patients Association Tapering Medication, striving for accurately substantiated information.

We searched in vain for articles supporting your claim that there is a fivefold increase in the risk of relapse.

Did this relate to women who stopped taking their antidepressants during pregnancy or another group?

We hope you can find the time to send us the articles/research in question.

Thank you in advance,

Met vriendelijke groet, kind regards,

Pauline Dinkelberg, chairperson
